

AS FRIEND MEETS FRIEND.

HERE IN THE SAME GREETING IN ALL COUNTRIES.

The First Salutation is Invariably an Inquiry About Health—The Doctor of Good Deeds and Wonders—The One Cure for Neuralgia.

How's All Right.

Daniels' Address.—It is rumored that David Curran will visit Danville this spring and assist the ladies of our churches in getting up an Operetta. The excellent production of Emeralds in this city several years ago was due to Mr. Curran, who displayed so much ability in the conduct of such entertainments. An Operetta under his management is certain to be a success.

STOLE THE HOUSE

And the Thieves Are Expected Back to Take the City.

When thieves carry away a house in five days they are becoming pretty bold. Such a thing has been done in Newport within the past week.

About two months ago Colonel R. W. Nelson purchased a white stone frame dwelling from the Rick estate.

The price paid was \$850, a fair compensation for the property.

For the last two weeks it has been vacant.

The sign, "For Rent," was torn down by some unknown person.

On last Wednesday evening several large strips of weatherboarding were torn off by a crowd of young miscreants, who have been in the habit of enjoying campfire life on the banks of the Licking.

From time to time the lads visited the place and tore off boards, shutters, window sills, etc., until last Saturday night nothing remained but a few posts and a portion of the roof. The amount of damage done will be \$400.

A sign placed on the foundation reads as follows: "Will be sold for the benefit of the poor. Call and see us at the river bank office. Nit."

WHO CAN TELL?

Where Is the Wandering Boy Tonight, Can Anyone Tell?

Thomas Hodge of Berlin, Bracken county, was in this city yesterday looking for his lost son, Henry Hodge, who left home on the 7th of January, and who has not been heard of since.

The son is only 16 years of age and on the day mentioned his father took away from him on account of his age and for something he was carrying with him. The boy seemed to get greatly offended at this and left home stating that he was going to visit his neighbor.

The same evening he was seen in Germantown, and has not been seen since. A few days ago Mr. Hodge received word that his son was in Maysville, and he came here to investigate, but report seems unfounded, as he can find out nothing here regarding him.

Mr. Hodge is greatly worried about his son on account of his age and for something he has happened him. He did not have but ten or fifteen cents when he left home and was not an over-healthy lad.

He was dressed in a suit of light color, had on no overcoat, and was rather a big boy for his age. The father states there was no reason for the boy leaving home as he did all in his power to make home pleasant for the lad.

The son was a little out of humor at his father for making the traveler away from him, and unless it is this that caused him to leave, Mr. Hodge cannot account for his strange actions.

Both mother and father are terribly worried over their son's mysterious action, and Mrs. Hodge, who has been ill, has been compelled to take her sick bed again.

THE PRESIDENT'S SIGNATURE.

One Man Gets Paid for Writing Grover's Name.

Much of the President's business consists in signing his name, which must be attached to all appointments, commissions, promotions and a thousand and one other documents. So exacting is this part of his duty that he cannot perform the whole of it. One employee of the Government gets \$1,900 a year for writing Mr. Cleveland's name on land warrants. He does nothing else but that. There are other officials in Uncle Sam's employ, by the way, who do nothing else, practically, but sign their own names. This is almost the sole duty of the Register of the Treasury, who is kept hard at work signing documents from 9 a. m. to 4 p. m. every day. The Assistant Treasurer of the United States is likewise kept busy with his own signature, which he is perpetually engaged in affixing to warrants for money.

Mr. Cleveland's messages to Congress are all written in autograph originally. He does all his writing with his own hand. Such documents are produced on foolscap, with pen and ink, turning off sheet after sheet with scarcely a correction. An interpolation is rare in his manuscript. In this fashion his most finished speeches are evolved. The literary method pursued by President Cleveland was wholly different. He found it very hard to write with a pen, and so he would keep by him a pad of paper and a soft lead pencil.

With these he would jot down notes from time to time during leisure moments, and from these notes he would produce the final version of his message. The messages sent to Congress are careful copies of the original. Senator Edmunds, while presiding officer pro tem, of the Upper House, refused to receive a typewritten message from the President. He claimed that it was not the President's in writing, and that the type script was not writing in the proper sense. This ruling established a precedent which has been followed ever since.

"How do you do?" is the phrase all over the world. In every language the first greeting inquires about the health.

Winter with closed doors and windows, colds and in-door life endangers health, brings a bad condition of the blood and a lowering tone to the nervous system.

"The most certain indication of badly nourished nerves," says Dr. Weir Mitchell, "is neuralgia."

Nothing else, tired, aching nerves of all irritation like appropriate nerve food, Paine's Celery Compound meets this need. Neuralgia, rheumatism, lumbago and kidney troubles, due to poor blood, yield to Paine's Celery Compound when nothing else gives relief.

MRS. L. VAN ZILE.

Mrs. L. Van Zile of 392 Liberty street, Paterson, N. J., whose portrait is given above, writes as follows:

"I enclose you one of my pictures, that you may show it to suffering humanity and tell what Paine's Celery Compound is doing for me. I am still using it, and it is doing a great work in my family. I have recommended the remedy to several sufferers."

"Am taking it for neuralgia, with great benefit." Paine's Celery Compound is the true specific for all diseases resulting from an impaired nervous system or impoverished blood. Try it.

"If you have friends suffering you, or if you are going away on a visit, please drop me a note to that effect."

HERETICAL PRAYERS.

Here's Another Pretty Propaganda Handout, Deutscherkorn.

The Catholics and Protestants of East Tawas, Mich., are in a row over the Public Schools.

A short time ago Father Brueck appeared at the school and requested the Catholics to leave the room during prayer.

Professor Ogerby objected, and suspended scholars for breaking the rules, that is, leaving the room without asking permission, which, it is claimed, would have been cheerfully granted if asked for.

The School Board was appealed to, and passed resolutions sustaining Professor Ogerby and censuring Father Brueck severely.

Now Father Brueck will apply to the Circuit Court for a mandamus prohibiting the religious service.

Excitement is at a high pitch.

The Waynes gave another excellent performance at the Opera-house last night in the presentation of "A Strange Lady." To-night will be presented "Rip Van Winkle," and that it will be given to us in a grand style has been exemplified by the production of the other two plays by this excellent company.

A turkey weighing forty-six pounds, raised in California, destroyed \$70,000 worth of property. An annual saving of some \$70,000 will be made. Two expert engravers from New York have been engaged to make the designs of the new stamps and the work will begin at once.

Heretofore the Bureau of Engraving and Printing will print Uncle Sam's postage stamps, and this is as it should be. An annual saving of some \$70,000 will be made. Two expert engravers from New York have been engaged to make the designs of the new stamps and the work will begin at once.

John J. D. Kner, who has charge of the Treasury Branch of Uncle Sam's big printing office at Washington, has recently repainted, repapered and refurnished the establishment, making it a veritable beauty, and altogether the most comfortable and attractive spot about the great building. Best of all, the fact that "Dexter" is in charge is assurance that the printing done is of the highest order, for Mr. Keboe has few equals as a printer. The Ledger predicts for his administration a brilliant success, and feels about three years hence he will deliver his charge to his successor in the best possible shape.

The mysterious disappearance of Richard P. Fox, who was a brother of ex Senator George B. Fox of Wyoming and a member of the Friend-Fox Paper Manufacturing Company, has at last been solved. His body was found hanging under his own mill at Lockland.

THE L. and N. Railroad Company on Saturday paid into the State Treasury \$110,000, only a part of its taxes for the present year. The L. and N. is a pretty badly abused corporation, but the fact remains that it does more to pay the expenses of the state than any other individual or corporation in it, and what is more it is among the most prompt of all the taxpayers it leads.

PUBLIC LEDGER CO.
THOMAS A. DAVIS
Mayville, Ky., Jan. 10, 1904.

"As a calamity croaker, the editor of THE LEDGER is a howling success," says Brer MARSH. Right you are, neighbor; it would be a poor howler who couldn't make a success of the business when you've had supplied so much calamity to howl about.

A DEMOCRATIC Senator says that one explanation of Mr. CLEVELAND's apparent indifference to public sentiment is that he is not permitted to see any newspaper criticism of himself. "Private Secretary THURBER," says the Senator, "goes through all the papers that come into the White House. He only cuts out for Mr. CLEVELAND's inspection the laudatory paragraphs. Even friendly criticism which is penned in the President's interest is suppressed by General THURBER. Mr. CLEVELAND is really in ignorance of what the public sentiment of the country is."

THERE is a strong feeling among the House Democrats against the Civil Service Law, and prospects are that when the question of appropriation for the Commission comes up it will meet with formidable opposition. Unlike his predecessor, Mr. STOCKS, who voted for the law, Congressman JASON BEOWN is especially active against the measure, and is strongly supporting Congressman FITZPATRICK's Bill for its repeal, which has many friends. If Congress will heed the whole business it will do well to be grateful to all who do not believe in such Democratic-Mugwump flapdoodle, and they compare a great majority of the Nation. Smash the "snail" revolution!

LYING Free-trade editors continue to fool their readers with the falsehood that the McKinley Law created an adverse balance of trade against the United States.

These are the facts and the figures: The McKinley Act took effect October 6th, 1890.

In 1888 and 1889 imports exceeded exports in value.

In 1890 the excess of exports over imports was \$65,518,375.

In 1891 the total exports reached \$98,449,810; the imports for the same year were \$94,916,106.

In the fiscal year 1892, the first full year under the operation of the McKinley Law exports exceeded imports by \$20,775,650.

In 1893 the excess of imports was \$18,735,728.

Instead of decreasing American foreign trade and exports the McKinley Law fostered both, until Mr. CLEVELAND's election utterly changed the conditions of all future contracts, to the injury of the American producer.

through blue cloths. Well, they're not green one at all either.

A YEAR ago they were house-to-house solicitation of cast-off clothes for the unemployed, for the factories were still running full time under a Republican Administration. What a delay valentine the workmen got in the tariff-smuggling Democracy now that he has had time to take in his benighted all around.

At Belfast, in the Linen Manufacturers' Association, it was stated that the Wilson Bill would put \$1,200,000 in the pockets of the Irish manufacturers. The Chairman regretted that the New York importers had not demanded a further reduction with the Democrats were in power. Mr. WILSON ought to oblige these modest British friends by requesting the Senate Committee to give them all they want.

HERE are seventeen Democratic Representatives whom Mr. CLEVELAND could not buy with patronage nor bully with threats:

Bartlett, N. Y. Mayor, La.
Cahoon, N. J. Price, R. I.
Campbell, N. Y. Price, La.
Covert, N. Y. Robertson, La.
Cummings, N. Y. Schermerhorn, N. Y.
Dancy, La. Sibler, Pa.
Dawley, Cal. Sibler, N. Y.
Haines, N. Y. Sibler, Conn.
Hendrix, N. Y.

These men all voted against the Wilson Bill to pauperize American labor and fill American business life with sneaking spies. Whatever their faults, they are not "cuckoo" nor cowards. They do not take their orders from the dictator in the White House, but from the people, whose official servants they are. The President may frown on them and the Administration organs may assail them with savage abuse. But when the ballots are counted next fall the "cuckoos" will have reason to envy the Representatives who have shown that they are Americans first and Democrats afterward.

THE DOCTOR IS RIGHT.

Ocala Bee.—Dr. Everett the new Massachusetts Congressman, was asked how he'd like Congress. "Oh," said the Congressman, "it's the funniest place I ever saw. In the House they have got the rules so fixed that you can't get any business in, and in the Senate they have them so arranged that you can't get any business out."

HE WANTED TO KNOW.

Ashington Star.—"Are you the proprietor of this restaurant?" said the man who had been waiting for his order until he became sleepy.
"Yes, sir. What can I do for you?"
"You can give me some information. I want to know whether you have told the waiter to stay away so that you can bring in a bill for lodging."

BIO DIFFERENCE.

Chicago Journal.—What is the income tax?

A few!
But are not Democrats against war taxes?
Only in times of war.
Oh, that does make a difference
